Though I don't need it, just having it adds to my collection of companionship for my favorite games.The books covers the Wii and Xbox 360 version of the game but it's also useful for the PS2 ver. too. It has a huge list of stuff you have to do in the game.One gripe I do have is a lot of those list are printed sideways -- intentionally. You have to turn the book to read them off.1 of 1 people found the following review helpful. bully scholarship edition is a tough game so that is why you need this guideBy thomas henryIf you are planning on getting bully scholarship edition well you should buy this guide because it has all of the secret locations of the rubber bands and cheat sheet for the classes plus all of the stuff that you have to do outside of school so this guide is a must have2 of 3 people found the following review helpful.
