Phillip Marcus, the Sea Snipers : Call of Duty: Modern Warfare 2 Signature Series Strategy Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Call of Duty: Modern Warfare 2 Signature Series Strategy Guide:

It's just okayBy Sven SlotlochivichI purchased this guide very soon after Call of Duty: Modern Warfare 2 came out. My primary goal was information for multiplayer. I wanted to know about unlocks, detailed weapon information (damage comparisons with distance), and prestige modes. Unfortunately, this guide does not have any of that. It is quite adequate for singleplayer, but I would say that one does not need a guide for singleplayer -- even on veteran. The only benefit I really obtained from it was finding intel. You can find that online, however.It does give some multiplayer advice, such as recommend class setups and maps, but class setup is typically relative to the way one plays the game.Overall, it might not be a bad thing to have if you know nothing about Call of

Duty. For you veterans that want in depth coverage, however, you will find much more info online for free.0 of 0 people found the following review helpful. Strategy guides are convenient.By Handy BearIt's a strategy guide, served its purpose but I lost it so I didn't get the full use out of it.

Play "Call of Duty: Modern Warfare 2" and win. Be prepared for anything with this guide. "Call of Duty: Modern Warfare 2 Signature Series Strategy Guide" features a complete step-by-step walkthrough of each single-player mission in the game.
