BradyGames : Call of Duty: Modern Warfare 3 Signature Series Guide (Bradygames Signature Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Call of Duty: Modern Warfare 3 Signature Series Guide (Bradygames Signature Guides):

1 of 1 people found the following review helpful. Extremely entertaining and educations, well done and organized! By AaronI was surprised at how well this book was put together. If you're a veteran player, there are still a few tips to learn here and of course it always helps to brush up on your strategies, but it is really geared more toward to the aspiring pro. It really goes in depth on every aspect of the game, campaign or online, and it discusses all the weapons in depth. I'm sure by now this book is on sale mostly everywhere, so pick up a used copy, and even though Black Ops

2 is out, I really feel the game play, graphics, and overall experience of the Modern Warfare franchise are far superior. 2 of 2 people found the following review helpful. interesting book
By John F. Davis
MW3 is a complex game with many variables. The game has three modes, multiplayer, campaign and scenarios. The book covers these in depth. The campaign section has walkthrus for each mission. The same goes with the scenarios. The multiplayer section provides maps, tips and info on all the different perks, weapon mods, etc. It also has sample custom class configurations for each.
Of the top of my head things I learned from reading this book:
o in multiplayer, skulls mark where teammates are killed and not enemies. I assumed it was both.
o the crosshairs change when you deal damage, not when you simply target an enemy.
o some attachments reduce damage.
o you can place C4 on ceilings.
o placing mines or c4 near unexploded vehicles enhance blast damage
1 of 1 people found the following review helpful. Good book.
By Bryan Ordenez-Santini
Really good book with tons of information. I have seen into the game and stuff so I can confirm that this stuff is accurate. However, not everyone knows how to use the recoil chart or know what centerspeed means. Therefore, It would be useful for them to actually show how to use the chart. Also, there are a few typos here and there, with the most obvious being the ump 45, being paired with a picture of a usp 45. Anyways, a good read, and worthy to check.

BradyGames Call of Duty: Modern Warfare 3 Signature Series Strategy Guide includes the following: BradyGames leads gamers through a spectacular, globespanning campaign in this uncompromising Call of Duty experience. - Complete Walkthrough Leads Gamers through Entire Game! -Comprehensive Coverage: Expert Tactics, All Weapons, Killstreaks, and More! -Detailed Maps for all Single and Multiplayer Levels. -Analysis of All Gameplay Features: Survival Mode, Killstreak Rewards and More! -Achievements and Trophies, Unlockable Weapons and Attachments, novel play modes!
