Leonard Zane : Captain Midnight's Post-War Radio Years before purchasing it in order to gauge whether or not it would be worth my time, and all praised Captain Midnight's Post-War Radio Years:

The over 800 radio broadcasts summarized in this book combine exciting, high-technology advancements of the 1940s with high adventure - even by today's standards! This is why Captain Midnight riveted over 20 million people - equally among youths and adults - to their radios around the globe. It's also why many fans went on to become career

aviators. Originally written by military pilot Robert M. Burt, and recovered by screenwriter and novelist Leonard Zane, these post-WWII thrills are back! So come climb aboard prop and jet planes, and haaaapppyy laaandiiiings!
