Brain Teasers of All Sorts:

What every magician needs! From the amateur magician who wants to learn how to do a couple of cool tricks and be the talk amongst his friends, to the intermediate magician who wants to improve and expand on his arsenal of tricks, this book can do just that and much, much more. No matter what situation you are in, prepared or not, you will learn enough tricks to amaze everyone in the room. Whether it's with your own deck of cards, which has been prepared in advance, or with a deck of cards you are handed over by your friends to prove if your skills are as good as you lead them to believe. And as the card tricks start to get old, challenge your friends to some brain teasers and puzzles that will have them thinking for a very long time. So go on, see how far you can push your friends into believing that Magic truly does exist!

From the Inside Flap To me, a card trick or a brain teaser is not just a way to impress and elude others, or a way to show off by figuring out a trick I've been shown; it's much more profound than that. To me, they are a way of opening up an entirely different way of thinking. Tricks helped me improve my ability to think outside the box, not limit myself while searching for solutions, and trained me in using every bit of information given to me in order to understand how things work, not only for tricks but on a day to day basis with life. Tricks are also a good way to prove to others that things they thought impossible are quite plausible. A simple card trick can leave even the most skeptical of spectators wondering how it happened and not only that; they might even beg you for the secret. Even more importantly, to me, a trick is the perfect way to put a smile on someone's face. This book contains all the material I have ever learned and performed. Each trick is explained in a step-by-step procedure making it easier to follow, and the requirements for each trick are explained along the way.
