Take a closer look at the cover to see what I mean. In the puzzle letters above the title, you'll notice that the "L" in the puzzle represents...the "L" in the solution, "Challenging." Each puzzle includes one letter that represents itself in the solution, so solving the puzzle becomes a bit non-traditional. I'm not sure if this makes the puzzle more or less challenging, but in my mind, I keep thinking, Why? There's no mention of this in the intro. It says, "No hints, no clues, just tough cryptograms."Additionally, for me, I like to fill in the

solution above the puzzle. In this book, the solutions go on the line beneath the puzzle. Another "meh" for me is the letter spacing in the puzzles. The letters are so condensed, it is sometimes hard to see where one word ends and the next one starts. There's a picture of a page included with this review.
