Prima Development : Champions of Norrath (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Champions of Norrath (Prima's Official Strategy Guide):

It is like an ADD Player's Handbook for NorrathBy Quercus AlbaI think of this guidebook like it is an ADD Player's Handbook for the Champions of Norrath game, for those that are familiar with DD games from past years.I played through Champions of Norrath last summer and beat it on Normal setting using a Wood Elf Ranger - without having a guidebook (I did use an online FAQ). I loved the game so much - it is such fun - pure action, with many of the old DD attributes that I love from way back in the 80's playing with dice. Because so much of the game is randomly generated level maps, and because the character classes are so different from each other and the game is so deep with weapons, options, etc., I knew I would return to play it again several times. So I found this Prima guide online on and ordered a used copy for a really cheap price before my current, second go-around in Norrath.I'm happy I did. The guide is 136 pages, and it really reminds me of the old Player's

Handbook in that it is very deep in laying out the various character classes, with strategies, pictures, the skill trees, detailed stat tables for skills and spells, etc. It has unbelievably deep and detailed armor and weapons tables (this game has more statistical variables than I ever imagined the first time through it). The guidebook is geared toward helping you select a character, and know some strategy and exactly what the stats will be for the thousands of different combinations this game allows. As far as a walkthrough, it is really more of a beast compendium and paragraph-type summary of various areas, dungeon levels, boss fights, etc., than a true step-by-step walkthrough. If you want step-by-step detail, this will not be what you are looking for. It's probably not even possible, given the random generation nature of the level maps. If you want a physical, paper, full-color book that functions like a Player's Handbook for Norrath, you will like this. I'm glad I got it, especially at such a low price for used. This game is one of the best ever and has super-high replay value. 0 of 0 people found the following review helpful. Four Stars By Melissa Pease Excellent reference, 0 of 0 people found the following review helpful. Great RPG! By Rowan Silverleaf One of my favorite RPGs. Champions of Norrath Return to Arms is the magnificent sequel to Champions of Norrath. Still playing them both after all these years!

Hack and cast your way through Norrath. Precise strengths and weaknesses for each of the five playable classes
Proven single-player and cooperative strategy for battling through 50 levels of gameplay
Detailed strategies for every monster you'll encounter
Battle tactics and tricks for all the bosses you'll face
