This continuation of a series of comprehensive chronological reference works lists the results of men's chess competitions all over the world--individual and team matches. The present volume covers 1975 through 1977. Entries record location and, when available, the group that sponsored the event. First and last names of players are included whenever possible and are standardized for easy reference. Compiled from contemporary sources such as newspapers, periodicals, tournament records and match books, this work contains 872 tournament cross tables and 147 match scores, and is indexed by events and by players.

"an ongoing project of great value. The author is a researcher, probably without parallel"--British Chess Magazine;
"the most comprehensive chronological reference work of chess results available and the present three volumes are a testament to the thoroughness of the author. Like all the books published by McFarland the production qualities in these three volumes are first rate with excellent binding and good quality paper used throughout"--IM John Donaldson (JeremySilman.com).
