John Wyndham : Chocky (Classic Radio Sci-Fi) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chocky (Classic Radio Sci-Fi):

From John Wyndham, author of *The Day of the Triffids*, comes this chilling tale of a normal boy confronted with abnormal circumstances. Matthew had always been an ordinary boy. Even when he started talking to himself and introduced his invisible friend, Chocky, to the family, it was obviously just a phase he was going through. And all children have imaginary friends, even if Matthews a bit old to have one. As he becomes increasingly distressed and blames it on arguments with this unseen companion, his parents become concerned. But when Matthew starts explaining binary maths and anti-gravity propulsion, concerns turn to worry. After all, Chocky is only the product of an overactive imagination. Isn't he? Chocky stars Sacha Dhawan as Matthew, Owen Teale as David Gore and Cathy Tyson as Mary Gore. This CD release also includes an introductory sleeve note recounting the making of the radio adaptation, written by Andrew Pixley. 2 CDs. 1 hr 29 mins.
