From G. Schirmer : Chopin: Album for the Piano (Schirmer's Library of Musical Classics, Vol. 39) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chopin: Album for the Piano (Schirmer's Library of Musical Classics, Vol. 39):

I was hoping to buy a book that I could play - I absolutely love every one of these songs. But this book will take some serious work for me - which actually is fine and will help me in the long run. But if you're lower-intermediate, you might consider something else first, so as not to feel too defeated. I ended up buying a less advanced Chopin book, but will continue working on this one, too. 0 of 0 people found the following review

Schirmer Chopin Waltz book was stolen, I have been hoping for a good replacement. This 33 song edition is the perfect replacement, with all of the Chopin favorites, edited by Rafael Joseffy, and with much better fingering than some of the other Chopin editions (namely the one edited by one of his former students whose name I forget at the moment). The book is paperback, with the usual yellow cover. Simply fantastic - unfortunately, did not have this in stock when I purchased it, so I went through one of 's affiliated A-Z sellers, KKMuzic. KKMuzic delivered the product as promised for a wonderful price, although be forewarned that USPS Media Mail is rather slow.
