**From Alfred :** Chopin -- Chopin: Selected Favorites for the Piano (Alfred Masterwork Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Chopin -- Chopin: Selected Favorites for the Piano (Alfred Masterwork Edition):

3 of 3 people found the following review helpful. From MainlyPianoBy Kathy ParsonsOf the many collections of Chopin's piano music, this is my favorite both personally and as a piano teacher. It isn't complete by any means, but

there is a really good sampling of Preludes, Nocturnes, Waltzes, Etudes, and Polonaises. Alfred's layout is always the easiest to read with clear explanations of some of the notation. I always really appreciate that anything editorial is grayed out to make it clear what Chopin indicated and what has been added. These are not Chopin's most difficult pieces, but a great way to get started with and to fall in love with his wonderful music. I bought a new copy for myself because my older copies have been used so much that they are falling apart. This one is for me - my students can borrow the ratty copies! 1 of 2 people found the following review helpful. You can't go wrong with the Alfred Editions. By little lady Great selections and easy to read print. Also, the book is not too thick that it won't stay open. I dislike music books that hardly will remain open, and you have to be struggling with them while you play. Also, interesting notes and forward about Chopin are included in the beginning of the book. 4 of 4 people found the following review helpful. Missing Page 110 (mid-piece) By Customer There's a lot of good music here but there is a misprint in the book. I was playing Fantasia Impromptu. When I turned the page from 109 to 110, I do not have page 110 but a repeat of page 100! Then the next page is 111. There is no p. 110 in the book, so I am missing one page of the piece! I would like to return the book for a refund or exchange.

This valuable collection contains a wide variety of Chopin's compositions. Included are the most familiar mazurkas, preludes, waltzes, nocturnes, polonaises, etudes and the "Fantaisie-Impromptu." Extensive introductory materials detail biographical information and performance suggestions. Editorial suggestions in the music are in light gray print and fingering has been added. An excellent choice for advancing pianists.
