Nocturnes are always so beautiful. It is like a 'must-have' for Chopin Nocturnes lovers. The binding makes it easy to open the book flat. My daughter loves the way it spaces out for her and (her teacher) to make notes for music study.4 of 4 people found the following review helpful. Five StarsBy

bubbles Exactly what I was looking for: Included the two Posthumous Nocturnes (C# Minor and C Minor). 0 of 0 people found the following review helpful. Very easy to open and keep open to the right page. By NikkiJ Very easy to open and keep open to the right page. Easy to turn the pages. Easy to read. Wonderful collection.

The nocturnes (night pieces) are among the most introspective and personal of Chopin's works, as he was influenced by John Field's pieces of the same title. This complete collection of the nocturnes includes a useful thematic index and footnotes citing the differences between the manuscripts and the first editions. The pedaling, tempos and other musical markings are Chopin's. The comb binding creates a lay-flat book that is perfect for study and performance.
