**Frederic Chopin : Chopin -- Waltzes (Complete) (Alfred Masterwork Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chopin -- Waltzes (Complete) (Alfred Masterwork Edition):

3 of 3 people found the following review helpful. Beautiful collection!By Kathy ParsonsI bought this book as a replacement for an older version of Alfred's Chopin Waltzes that one of my adult piano students, um, "borrowed" and moved away before returning it. I love Alfred's classical books. They are clearly notated, have lots of great information about the music and the composers, and the notation is easy to read. Very highly recommended!0 of 0 people found the following review helpful. Here is a book of all Chopin's waltzes in excellent print and font for easy

readabilityBy CGIsacksonHere is a book of all Chopin's waltzes in excellent print and font for easy readability. The authors have extended themselves to provide the appropriate articulation and use of pedaling, Ornamentations (Appoggiaturas and trills (prefix and suffix)), fingering and footnotes.I purchased this book of waltzes to have all of them in one convenient book for practicing. There are "two additional waltzes both in E-flat major have been added in this newly revised Alfred edition."This book is a must for lovers of Chopin.0 of 0 people found the following review helpful. Good size print.By ChickadeeNice print.Comb binding would have been better.

The 17 waltzes comprising this volume are among Chopin's most popular compositions. Composed over a period of 20 years (from 1827-1847), only eight waltzes were published during Chopin's lifetime. Many of the others were written as gifts for women with whom he was acquainted. This practical performing edition is clearly spaced for ease in reading and contains a thematic index.
