Brian Hennigan : Scottish Urban Myths before purchasing it in order to gauge whether or not it would be worth my time, and all praised Scottish Urban Myths:

The couple in Falkirk whose pet dog is crushed in a freak accident; The Glasgow girl who visits an elderly aunt in an institution and doesn't find it so easy to leave; The Aberdeen baby-sitter and the murderous, mystery caller; We all

know a tale or two of scary or amusing events said to have happened to someone they know - a friend of a friend, your sister's boyfriend's mum, this bloke I was at school with - and the events happened just down the road, or out in the wilds of Scotland, but somewhere you've been or at least might someday visit. These are urban myths, and as this book reveals, Scotland has more than it's fair share. Written in Brian Hennigan's own inimitable style, these powerful stories have a universal appeal - tales that seem somehow familiar, somehow true, that make you chuckle or your hair stand on end, that you want to pass on, that you can't quite forget...even if you want to.

About the Author Brian Hennigan's business career spans many industries. His fiction has been broadcast on BBC Radio Four and Radio Scotland.
