I have collected an edition every year since 1972! I just recieved from , Screen World 61. If you are a movie enthusiast as I am these volumes are priceless. Each year the books I assume go out of print so I guess I have quite a valuable collection. In any case if you love movies Screen world is a must for your library.0 of 0 people found the following review helpful. Five StarsBy T. G. QuinnJust what I wanted. Thanks!0 of 0 people found the following review helpful. INVALUABLE GUIDE TO THE 2001 MOVIE YEARBy Anthony McGillAnother superb volume of Screen World with 432 pages packed with photos, credits and invaluable information about the 2001 film year. It's been around for such a long time that movie buffs would be lost without this annual contribution to the cinema. Full photographic and statistical coverage of all the domestic and foreign releases, biographical data, top box office films, promising newcomers and obituaries make this book an essential item. Lots of interesting films to ponder. "A Beautiful Mind" was the big Oscar winner. "Monster's Ball"

wasn't far behind with an excellent cast highlighted by Halle Berry scoring the Best Actress Oscar. The three films which collected the big bucks at the box office resulted in many sequels to follow: Harry Potter, The Lord of the Rings and Shrek. Why stop when you're on a good thing! Personally the film I preferred was the thought provoking "In the Bedroom", Todd Field's extraordinary debut feature, a beautifully written and directed drama boasting brilliant performances by Sissy Spacek and Tom Wilkinson.

(Screen World). Every significant U.S. and international film released from January 1 to December 31, 2002, along with complete filmographies: cast, characters, credits, production company, month released, rating and running time. Also included are biographical entires: an unmatched reference of over 2,250 living stars, including real name, school, place and date of birth.
