Michael Welles Schock : Screenwriting and The Unified Theory of Narrative: Part II: Genre, Pattern The Concept of Total Meaning (Volume 2) before purchasing it in order to gage whether or not it would be worth my time, and all praised Screenwriting and The Unified Theory of Narrative: Part II: Genre, Pattern The Concept of Total Meaning (Volume 2):

0 of 0 people found the following review helpful. Must Read If You Create StoriesBy D. McKLike all of Mr. Schock's books, this is fantastic. I have 5 or 6 books I come back to time and time again when it comes to story theory. Vol. 1 is one of those books. Vol. 2 is an exceptional expansion on the ideas in Vol. 1.

Part II: Genre, Pattern The Concept of Total Meaning completes the Unified Theory of Narrative by going far beneath cinematic storytellings surface to reveal its hidden structures of meaning. No previous book has explored the thematic dimension of screencraft in such depth or detail; using an interdisciplinary approach to explain the psychological, sociological, and cultural constructs which have shaped the feature film into the complex form of discourse we know today. In Part II you will find: The properties of myth behind all storytelling The purpose and origin of cinematic genres The phenomenon of plot patterns and its connection to cultural belief The explicit lessons found in protagonist psychology The ideological nature of dramatic conflict And most importantly, the connection between these elements and our most basic psychological and sociological needs. Part II: Genre, Pattern The Concept of Total Meaning is about far more than screencraft. It is about the intimate relationship between storytelling and humanity itself. Since its beginnings, humanity has used story to make sense of its world, express its beliefs, and give life a sense of order and meaning. By revealing the cinematic storys ideological structures, and ultimately unifying them with the physical elements presented in Part I, Genre, Pattern The Concept of Total Meaning shows how modern cinematic storytelling continues this tradition; resulting in an endless multitude of narratives, each doing their part to serve human society with lessons, arguments, and statements of belief.
