This book is not only insightful and thorough in explaining the ins and outs of screenwriting, but it is an entertaining read that holds your interest. Cleverly written, this book has it all: plotting, outlining, formatting, writing dialogue, and so much more. Before reading it, I knew absolutely nothing about screenwriting. I was intimidated by the prospect of writing an entire screenplay. However, this book held my hand the whole way and gave me the confidence I needed. Now, thanks to this book, I've written a feature-length screenplay that is a finalist in the CSU Media Arts Festival in Los Angeles. With its easy-to-follow, step-by-step guidelines, this book is a must for anyone interested in screenwriting!

A rare combination of inspirational and highly practical. Oh, and funny as hell!
The book moves you through creating ideas, structuring the script, writing scenes, developing characters and plot, and revising and selling your script.
His knowledge of cinema shines through. He uses ample examples from films to illustrate his points. His witty, hilarious voice makes reading this book a blast.
I've never written a screenplay, but now I feel ready--and inspired--to start.

As a beginning screenwriter, this book has helped me tremendously! It breaks down the daunting tasking of writing a screenplay into several manageable and fun steps. Everything is organized and makes sense! I would challenge someone to read this book and not want to write a screenplay after finishing it. The book is an easy read, funny, and inspiring.
With the help of this book, I wrote my first feature screenplay and won an honorary award in the BEA Festival of Media Arts competition.
I highly recommend this book!

Screenwriting for Neurotics is a quirky and accessible handbook for beginning screenwriters. Whether you are a student in a screenwriting class or just someone who wants to try their hand at writing for film or television, this handy guidebook makes the entire process simple and unintimidating. Scott Winfield Sublett, a veteran screenwriter and screenwriting teacher, walks you step by step from start to finish and helps you navigate potential and unforeseen difficulties along the way, offering handy tips and suggestions to keep you from becoming blocked or stalled. Rather than throwing you into the writing process headfirst, Sublett guides you through the various decisions you need to make about plot, character, structure, conflict in the order you need to make them. He explains in straightforward terms the terminology and jargon, the theory and industry standards, and dispels common myths about screenwriting that can discourage or hold back a beginning writer. Balancing theory and practice and offering valuable and insightful examples from recognizable and well-known classic and contemporary films, ranging from *Casablanca* to *A Christmas Story* to *Clerks*, Sublett provides the new writer with the necessary tools to successfully write a feature-length screenplay and offers a roadmap of where to go next. With an emphasis on helping a writer not just to begin, but also to finish a script, *Screenwriting for Neurotics* is the screenwriting book to help you actually write one.

What comes through is not just the author's deep understanding of screenwriting but also his deep love of classic cinema. A delightful read and an essential guide to writing for the screen.
