Richard Walter : Screenwriting: The Art, Craft, and Business of Film and Television Writing (Plume) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Screenwriting: The Art, Craft, and Business of Film and Television Writing (Plume):

2 of 2 people found the following review helpful. Very Informative but long winded By Kris Gucker OK, first the bad

news out of the way: This book is often very pompous and uses a lot of lengthy descriptions to illustrate simple points. Walter loves the sound of his own keyboard and often diverges into long lists and lofty philosophy on how your screenplay should leave audiences misty eyed and gasping in awe at the glory of humanity. On the other hand, for those willing to sift through the self indulgent prose, there are a great many fabulous tips to tighten and polish story, structure, and dialogue. Walter offers tremendous insight and fresh ideas and reminds us of the basics at the same time. I read this book through twice and the second time, highlighted the good parts for reference. 0 of 0 people found the following review helpful. Five Stars By david stenstrom It spoke in terms that attracted me, in my terminology. And it's not overwritten. 1 of 1 people found the following review helpful. Screenwriting Craft Book By Gary W. Towner Great reading and a great reference book. I have used it to improve my own screenwriting efforts and can recommend it.

Nationally known as the leading teacher of screenwriting, Walter makes his classes available to all screenwriters, offering the essential how-to's as well as a wealth of practical advice.
