David Wild : Seinfeld: The Totally Unauthorized Tribute (Not That There's Anything Wrong with That) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Seinfeld: The Totally Unauthorized Tribute (Not That There's Anything Wrong with That):

6 of 6 people found the following review helpful. A one-stop authority on Seinfeld lore By A Customer David Wild has created a single source of trivia about the show that has no equal. As Sein-withdrawl takes it's toll, the "Unauthorized Tribute" makes it a little easier to go on with life. I would like to know if David is going to "finish" the book by adding the remaining episode descriptions to a 2nd edition? Thanks for preserving the memories. 3 of 4 people found the following review helpful. A tribute? No, David Wild worships Seinfeld! By A Customer David Wild has done his research well and this book has the history of the #1 sitcom Seinfeld from it's humble beginning (it was nearly axed) to

its final season. There are many inside info that makes the reader feel more intimate with the show. I personally love the wacky timeline that has hilarious reference to Seinfeld, especially this quip : after the contest was aired, masturbation became the rage in America! Get out!!! The episode guide wasn't much help though, what without the guest cast name and memorable quotes. Also a few episodes were missing as the book was out before the show ends. All in all it is a fun read about nothing and everything. 5 of 7 people found the following review helpful. Nice cover - shame about the book. By A Customer A disappointing read. Various sections read like hastily written padding and there is no real analysis of the Seinfeld phenomenon. The author also indulges in a lots of 'cutesy' chat with the reader, most of which is pretty well incomprehensible to a reader like me from the UK. If you're looking for a book like this try 'Seinfeld Universe'. (A note to US fans: here in the UK Seinfeld is virtually unknown - it goes out at 11.15pm Tuesday nights on BBC2 and gets no trailers or promotion. How odd then that the BBC should release their own UK edition of 'Seinfeld Universe'...)

As America prepares for what will be--Jerry willing--a long goodbye to its most beloved, #1 TV show, bestselling author David Wild celebrates nine years of "Seinfeld's" neurotic greatness with a witty and sophisticated book of all things "Seinfeld"ian. Included are an episode-by-episode look at every season, the complete "Seinfeld" "filmography", a "Seinfeld" dating guide, and "yadda, yadda, yadda". 30 illustrations.

.com Seinfeld is more than just a TV show, and David Wild's tribute is more than just an episode guide. As he states in his introduction, "...for me, Seinfeld is one of those rare redeemers of popular culture; like Sinatra, pasta, or the Beatles, Seinfeld shows that sometimes the masses get things exactly right." Woven around Wild's brief and opinionated summaries of 164 episodes are trivia quizzes, a history of the show's development, a review of the real Soup Nazi's restaurant, and most interesting of all, comments from many of the guest stars who have appeared in Seinfeld. Even George Steinbrenner makes an appearance and he reveals why his much anticipated guest appearance was cut from the show. Many TV and movie tie-in titles feel rushed and opportunistic, but Seinfeld: The Totally Unauthorized Tribute is clearly the work of a real fan, and it's a lot of fun. Favorite fact? Jason Alexander and Holly Hunter made their first movie appearances in the same film. - Simon Leake
