Jeremy Vineyard : Setting Up Your Shots: Great Camera Moves Every Filmmaker Should Know before purchasing it in order to gage whether or not it would be worth my time, and all praised Setting Up Your Shots: Great Camera Moves Every Filmmaker Should Know:

0 of 0 people found the following review helpful. Three StarsBy tjxprssNot my book, purchased for someone else.0 of 0 people found the following review helpful. Excellent explanation of shots and their psychological impactBy StuckshutterJust what you need to lean more ways to improve if you are not a film school grad (I'm not, had I gone, they would have been hand cranking the cameras at the time anyway). I picked up a number of ideas of ways to think about the shot setup to achieve a reaction. The real bonus was the section on editing your shots so it really is setting up shots in camera and getting the most out of what you have in post. I'd really recommend it.0 of 0 people found the following review helpful. The best book I have ever bought on setting up shotsBy EddyThe best book I have ever bought on setting up shots. It is written in a concise English with very succinct explanation about every shot. The item reached me within the time frame stated and in good condition.
