Doug EvansIt was probably impossible to follow the movie which was so good. I'll give them credit for trying. I'll also give them credit for creating a play that has the same format as Elizabethan plays and our current movies. They kept many of the same lines. It just doesn't work it's like comparing a high school play written for high school kids to a Shakespearean play.1 of 1 people found the following review helpful. one of the best playwrights of the modern areaBy BiggshowAs a fan of the movie, I have been interested to see if someone would adapt the thing for the stage, having as one of the screen writers Tom Stoppard, one of the best playwrights of the modern area. It may be my nearly memorized familiarity with the film but I felt this adaptation by Lee Hall fell a little short of the potential of the story. Having said that, I do think Hall has retained the essence of the film while making the appropriate changes to make the play work on stage. I would dearly love to see an actual production of the play to see if it does, in fact, work on stage.
