**Carolyn Jess-Cooke : Shakespeare on Film: Such Things as Dreams Are Made Of (Short Cuts)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Shakespeare on Film: Such Things as Dreams Are Made Of (Short Cuts):

Since the birth of Shakespearean cinema in 1899, there have been close to 500 film adaptations of the Bard's work in which he has been taken to outer space, downtown Mumbai, and feudal Japan. Exploring this astonishing array from early cinema to the present, Shakespeare on Film: Such Things as Dreams are Made of analyzes Shakespearean

cinema in four major contexts: performance, adaptation, film style, and popularization, interpreting his unique ability to penetrate cultures, mindsets, and languages across the world. The volume reveals Shakespeare's continuing currency in contemporary culture and critically examines the dialogues between cultures, mediums, and historical periods.

[A] wonderfully intelligent, concise, and helpful book. (Literature/Film Quarterly) Those who know Shakespeare, films and theory, will marvel at this wonderfully intelligent, concise and helpful book. Those who are beginning will be drawn in by its clarity and its abundant insights. (Professor Richard Vela, University of North Carolina at Pembroke)

About the Author Carolyn Jess-Cooke is lecturer in film studies at the University of Sunderland.
