Not only is it the perfect addition to my coffee table, but it's a really fun book to read and totally relatable. Interdonato writes about her dating life, comparing her past relationships to shoes we all love, hate, and some we just love to hate, all while adding a laugh out

loud twist. You're bound to find yourself saying, "Oh my god, yes! My ex was just like a shoe boot, too!" At least, I did ;) I mean, what's not to love? Shoes, men and love in one book. Need I say more? 1 of 1 people found the following review helpful. So much fun to read! By Christine Paniccia I really enjoyed this book. I found myself thinking back to past experiences and boyfriends and trying match the "shoe". This is a great book to gift to friends - married or single - that could use a really fun read. Share with your book club; I'm sure it'll spark the sharing of A LOT of juicy dating stories. 1 of 1 people found the following review helpful. Entertaining and easy to read By Amanda Entertaining and easy to read. Got a couple of laughs and recommend to anyone looking for a fun collection of stories comparing men to shoes. Reminded me of dating situations I was in before I got married.

Shoes Are Like Men is a laugh out loud funny modern spin on dating from a womans point of view. Every chapter compares dating from blisteringly painful to as comfortable as a pair of slippers. Every female will totally relate their date to every chapter in this book.
