2 of 2 people found the following review helpful. Terrific!!!By Slash6airheadA fast read. Though, you will want to keep this close by when planning shots. Absolutely terrific book. I own all three and vol 1 and 2 of master shots.0 of 0 people found the following review helpful. Definitely helpfulBy GJI really like it. I feel like it could be a little more

detailed, visually, but I've gotten some cool shot ideas from all of the books0 of 0 people found the following review helpful. Interesting look at TarantinoBy Dean FarrellI had the other two books in the series, so I knew what to expect. Interesting take on the films. I always try to watch the film prior to reading, and then go back and compare.

Want your film to sizzle with danger? Then learn from the master of tension and action. Using Tarantino's secret tricks for creating conflict, keeping dialogue taut, and letting all hell break loose, you will enhance your own shooting style. Whatever your budget, get the action pumping with the camera setups and moves revealed in this dynamic book. Quentin Tarantino is a master of tension, suspense, shocking moments, dazzling dialogue, and off-beat humor. This book shows you why the best moments in his films work so well, and how you can use these ideas to enhance your own filmic style and stun your audience.
