Year-In-A-Box : Someecards - UNCENSORED Year-In-A-Box Calendar (2017) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Someecards - UNCENSORED Year-In-A-Box Calendar (2017):

2 of 2 people found the following review helpful. Quality for 2017 not as nice as it was for 2016
By K.T.M. This one is not put together as well as last year's calendar. The paper is matte and not shiny and there are no lines on the back for notes. Half of the calendar brick was separated from the holder when I opened it so I've tried to glue it back on and it keeps coming off. The part on top that holds all the sheets together is paper like and it doesn't rip clean. There were two pages before the first that I removed and the corners were left attached to the calendar so I had to take them off. The humor is still there and I will enjoy having it in the office, but the quality is way down from last year's edition. A little bummed because I purchased a second one as a present.
0 of 0 people found the following review helpful. Very irreverent and funny, a bit X-rated at times
By Tacomapa I love this calendar and have it at work. This is the 2nd year I've had one of these on my desk. It's highly amusing, but then I find Cards Against Humanity amusing, too. It's irreverent and can be pretty naughty at times. The language is fine; it's the content that can be x-rated.
0 of 0 people found the following review helpful. Funny calendar, reduced quality
By K. Duggan I have been using this calendar every day for the past 5 or 6 years and it always gives me a chuckle but they reduced the quality of the pages this year which is kind of a bummer. Whereas they used to be on glossy paper, now they are on basic, thin matte regular paper which made the quality go down a bit.

Laugh your way through 2017 with this hilarious pop-cultured calendar that will keep you coming back for more.
