**Year-In-A-Box : Someecards Year-In-A-Box Calendar (2017)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Someecards Year-In-A-Box Calendar (2017):

Is a Xmas gift and is going to come off as pretty crappy.1 of 1 people found the following review helpful. Awful, not remotely funnyBy HCKI enjoy the ecards I come across online and thought this calendar would be a slam dunk. I bought the safer version for work. It is absolutely awful!!!! The phrases are dumb and just crass. I am extremely hard to offend and these are so bad I find myself throwing away pages of them days ahead of time trying to find one that isn't too obnoxious to be on my desk. I have it on the other side of my computer so it can't be seen from my office door because it is not suitable for coworkers. It is mid-May and there have been a total of about five days that have actually made me laugh and weeks that I have thrown away ahead of time because they were just plain tacky.Do not buy this calendar.1 of 1 people found the following review helpful. and it's my favorite for the funny and timely comicsBy ElifI have been getting this calendar for a few years now, and it's my favorite for the funny and timely comics. Except, this year I noticed that they really cost-cut the quality of the paper. It used to be glossy and thick, and now it's quite dull and very thin. Please go back to your old ways and make a higher quality product. After all, this is an object that sits on consumers desks for a whole entire year!

Laugh your way through 2017 with this hilarious pop-cultured calendar that will keep you coming back for more.
