Richard Matheson : Somewhere in Time before purchasing it in order to gauge whether or not it would be worth my time, and all praised Somewhere in Time:

1 of 1 people found the following review helpful. LovelyBy AnenaVery interesting book that I would recommend anyone to read. This book was recommended to me and once I heard of some little dynamics I thought I had it pretty much figured out. I decided to buy anyway and even though I thought I had the whole scene mapped out in my head, everything didn't happen as the way I expected it so in short it leaves you wondering what the writer was thinking at some points but in the end you will pleasantly happy because even though you expected the ending plot to go one way, it did but with a different twist. Very nice0 of 0 people found the following review helpful. Movie Fan Bought the BookBy A. E. KildayI got the novel because I love the movie, and they are fairly similar, though I think I may enjoy the movie more. Very interesting to get inside Collier's head more as we follow him along as narrator. I really enjoyed reading this and tried not to read it out loud to my husband (who has zero interest) but couldn't help myself. Some of the turns of phrase in this novel were really endearing!If you like the movie, check out this book. Otherwise, you might find it a bit dull without the gorgeous soundtrack playing along in your head.0 of 0 people found the following review helpful. Poignant.By K. Kris LoomisThis author really digs into human interactions and emotional connections. He writes in tasty bite-sized chunks that capture the journey of the protagonist in a highly digestible way. LOVED this book.K. Kris Loomis is the author of Three Modern Shorts: The Funeral Home Stories and several other short fiction collections.

Like *What Dreams May Come*, which inspired the upcoming movie starring Robin Williams, *Somewhere in Time* is the powerful story of a love that transcends time and space, written by one of the Grand Masters of modern fantasy. Matheson's classic novel tells the moving, romantic story of a modern man whose love for a woman he has never met draws him back in time to a luxury hotel in San Diego in 1896, where he finds his soul mate in the form of a celebrated actress of the previous century. *Somewhere in Time* won the World Fantasy Award for Best Novel, and the 1979 movie version, starring Christopher Reeve and Jane Seymour, remains a cult classic whose fans continue to hold yearly conventions to this day.

"The author who influenced me the most as a writer was Richard Matheson." --Stephen King "Stylish and gripping, [Richard Matheson's] stories not only entertain but touch the mind and heart." --Dean Koontz "Richard Matheson is one of the most respected living American fantasy/science fiction/horror writers. . . . Matheson could not write a bad book if he tried." --Hartford Courant
