glenn doc hollowayGreat read about the Indie film industry.

Blending practical advice, insider information and near-slanderous gossip, *Spike, Mike, Slackers* Dykes is the definitive book on the rise of the American indie film, by the man *Variety* has called the 'guru of independent film'. For more than a decade John Pierson has specialized in spotting struggling film-making talent, helping the film-makers raise money to keep on working and then brokering a distribution deal for them. His successes include Spike Lee's *She's Gotta Have it*, Michael Moore's *Roger and Me* and Kevin Smith's *Clerks*. In short, Peirson has been at the epicentre of the independent film movement that has revolutionized and revitalized American cinema. *Spike, Mike, Slackers* Dykes is an insider's look at the art, heart and enterprise of the world of independent film.
