Jhonen Vasquez : Squee before purchasing it in order to gage whether or not it would be worth my time, and all praised Squee:

2 of 2 people found the following review helpful. Squeeing about Squee! By Cassidy Day This book is basically just a compilation of previously released Squee comics released by Jhonen Vasquez, so if you're looking for something different then this book isn't for you. Either way, for a person who loves comic collections all in one bundle this is a

great buy. Even if you haven't read all of the Johnny The Homicidal Maniac's comics (which is where the character Squee originally derived from), it's fun to read and well worth the money. And of course, if you aren't aware of this already, this is most likely not a comic you want to give to your little brother or sister of whatever. (I bought mine used, and it still came in impeccable quality!) 0 of 0 people found the following review helpful. A Sort-Of Lighter Followup to JTHM... By Feelah the tigress Squee is essentially a follow-up to the Johnny the Homicidal Maniac comics, but not in a traditional sequel-type way. Squee was a character that appeared in JTHM, but was not the main focus. This volume focuses directly on Squee, though, so it can't really be seen as a sequel to that book it's more of a spin-off really. That being said, I thoroughly enjoyed Squee. Squee still has Jhonen Vasquez's usual dark humor, but it feels like a slightly lighter, more fun collection compared to JTHM, and I'd have to say I found Squee to be funnier than JTHM overall. Not to say I didn't enjoy JTHM, it's just that Squee is my favorite out of the two. I really love the humor of Squee, and, additionally, for fans of Invader Zim it's super fun to see strange little precursors to characters and alien designs that appear in Invader Zim. Aside from the main Squee-related stories, this collected work also includes the Meanwhiles and Wobbly Headed Bob side-stories, so if you get this and the Director's cut of Johnny the Homicidal Maniac, you'll have the whole collection of side stories. So, if you like JTHM, then you need to pick this up. If you haven't read JTHM yet, then you should start there since that's the origin of Squee as a character. The best option of all, though, is to get both! 0 of 0 people found the following review helpful. This bedtime story is scaring my nephew. Wait... it is a bedtime story, isn't? By Itzel Rivera Castro And unspeakable is the word which fits the most for describing this comic book. In other words, it's amazingly dark and I like that. This sequel to JTHM is disturbing and it doesn't need anything from its predecessor, which is also a great artwork itself. I liked the fact that this book collects all the Happy Noodle Boy's episodes not seen in JTHM and all the Meanwhile's as well. I think you shouldn't lose the opportunity to purchase this comic if you are a devoted Vasquez fanatic. Also, it is a great comic for reading it as a bedtime story and traumatize your annoying nephew or little sibling... I mean, why not?

This series features familiar faces from Johnny, the Homicidal Maniac, but focuses on poor little Squee, Johnny's little trauma magnet neighbor. Squee reminds us all of what childhood was all about: witnessing vicious dog attacks, being abducted by aliens, and having dinner at Satan's house.

About the Author Jhonen Vasquez reluctantly lives in Southern California and is currently developing a cartoon for Nickelodeon. He likes spooky movies, sugary candy, and cool computer games.
