It's a little deceiving with the whole 50 artists thing, as there are only 12 poster sized pieces and then 50 little thumbnails at the back, but I thought that would probably be the case since it is a calendar after all. 2 of 2 people found the following review helpful. Worth it for all the prints. By Customer I got this calendar for my husband for his birthday. After the year is over I plan on framing the detachable prints to hang in our office/"nerd cave." Note: if you're looking

for a calendar with space to write on, this is not it. More of a reference for dates.0 of 0 people found the following review helpful. Good posters, bad calendarBy Rebecca AllenThe art on this is lovely, but it is a terrible calendar. All the days are show in a single line at the bottom, so you have to squint to see them, let alone what day of the week each is; there's nowhere to mark down holidays or other date-related notes. So if you want some very nice Trek-related posters, go for it, but if you're looking for a functional calendar, steer clear. I'll be back to my standard calendar next year.
