**Ina Rae Hark : Star Trek (BFI TV Classics)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Trek (BFI TV Classics):

Star Trek remains the original, iconic and, for its many fans, the best example of tv science fiction, boldly going where no tv drama had gone before. Ina Rae Hark's lively account of all five series provides a comprehensive guide to the Trek universe and its key themes, and offers new insights for even the most hardcore Trekker.
