J. Housley : Star Trek: The Voyage Home - Original Movie Script before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Trek: The Voyage Home - Original Movie Script:

0 of 0 people found the following review helpful. An excellent addition to the script libraryBy Bernie (xyzyzy)Most scripts are presented in pamphlet size packaging with maybe a black and white picture or two of the play. Some screen plays of movies are nothing more than graphic novels.This book is an excellent balance of presentation in script form. I was surprised to see that I have trouble spotting the difference between the script and the movie. I have seen the movie so many times that I fill in the characters and locations from the movie (maybe more than I should.)The script is not peppered with pictures as you go. But for those that would feel cheated without pictures there are quite a few in the back of the book.This actually makes for a good coffee table book. Now I will have to clean the house for a kaffee klatsch.

Premiere magazine promotional version of the movie script.
