Lucasfilm LTD : Star Wars Art: Posters (Star Wars Art Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars Art: Posters (Star Wars Art Series):

Nice oversize format and high-quality presentation makes this a very nice book to have or to give as a gift. There are many posters I had never seen before. It's a nice history of the Star Wars movies and their impact on the movie industry. Some of the foreign posters are the most interesting as they use unique art and are much different from the USA edition. I highly recommend this book for all Star Wars fans to have in their library. 0 of 0 people found the following review helpful. Get this book, set it on the coffee table By AT Awesome collection of posters, concept art, and other bits. Highly recommended for any Star Wars fan! 0 of 0 people found the following review helpful. Great art from a great franchise By Gregory M. Ramsey Great art from a great franchise! I wish I'd saved my poster from "The Empire Strikes Back" which was given to me while on the way into the movie theater. My only critique of this book is that most of the posters were repeatedly shown enlarged on the next page. This collection could've been more if not for the wasted pages of the same posters. This still remains a nice little art gallery.

Few pieces of artwork distill the passion for Star Wars as do posters. From Tom Jung's iconic one-sheet for Episode IV to Roger Kastel's *Gone with the Wind*-inspired painting for Episode V and beyond, Star Wars has enjoyed nearly four decades of poster art from some of the most renowned artists working in movies. The fifth book in the George Lucas-curated Star Wars Art series, *Posters* collects the best artwork from all six Star Wars films, the Star Wars: The Clone Wars animated television series, and limited-edition prints. This collection unites all of the action, artistry, and drama of a galaxy far, far away into one lavishly produced tome.

A new book called *Star Wars Art: Posters* collects some of the most iconic and stylistically diverse broadsides.
