From Harry N. Abrams : Star Wars Art: Visions Limited Edition (Star Wars Art Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars Art: Visions Limited Edition (Star Wars Art Series):

79 of 80 people found the following review helpful. Not concept art, but as goodBy
Parka[[VIDEOID:mo3JIGPR5OM9I7C]]This isn't the concept art book I imagined or was expecting. This isn't a concept art book at all.Star Wars Art: Visions is more of a fan art book, except the 'fans' here are some of the best illustrators around. Think Moebius, Alex Ross, Syd Mead, Julie Bell and Boris Vallejo, H.R. Giger, Peter de Seve and James Christensen. There are 93 guest artists in all. Wow!George Lucas has invited all these fine artists to create art for Star Wars, in their own style and interpretation. You'll see art from all sorts of styles, ranging from impressionist to manga to Picasso, punk(?), collage and more.The book itself is huge, and the prints are large. You can see the details of the brush strokes and all. And most of the paintings are created traditionally.The subjects are pretty cool, especially the more different ones like Kermit the Frog fishing with Yoda (from Peter de Seve), or the manga Leia which looks like she's from an alternate universe, or (gasp!) a nude Aayla.This is a great collection of quality art. Easily recommended to any Star Wars fan.(There are more pictures of the book on my blog. Just visit my profile for the link.)1 of 1 people found the following review helpful. This was a miss for me.By VIIIIt's an interesting concept, but it wasn't what I was expecting. I was hoping for vivid, beautiful illustrations as pictured in the sample photos, but instead I got various artists' interpretations of Star Wars in different styles, including cubism and manga. I purchased it as a gift for my boyfriend, who loves Star Wars illustrations, but instead it was a miss, gift-wise. I returned this to order the Rogue One visual dictionary for him instead.0 of 0 people found the following review helpful. Love the bookBy MaryLove the book. A friend of min had one of his paintings included.You do have to realize that these are artists'

visions, and not actual scenes from any movie(s), but its still a great book to own and look through.

This deluxe 240-page limited edition includes 5 hand-signed, archival-quality 10 x 12" gicle prints by Alex Ross, Moebius, Donato Giancola, Daniel Greene, and Jamie Wyeth, as well as 40 exclusive paintings and 50 extra pages showing artists processes and sketches. Featuring foil-stamped, real-cloth binding and housed in a lush clamshell case, the edition is limited to 500 copies. When Star Wars debuted in 1977, it revolutionized mainstream American filmmaking, transporting fans to new galaxies and introducing them to countless now-classic characters, aliens, planets, and starships. In the decades since, the Star Wars Saga has become a phenomenon impacting cultures across the globe. Just as George Lucas drew upon the work of N. C. Wyeth and Norman Rockwell for his own visual inspiration, he has now invited more than 100 well-known and promising artists to draw upon the entire Star Wars galaxy for inspiration. Star Wars: Visions collects these magnificent artworks for the first time. Featuring pieces by renowned artists such as Amano, Allan R. Banks, Harley Brown, Gary Carter, James Christensen, Michael Coleman, Kinuko Craft, Jim Dietz, Phillipe Druillet, Donato Giancola, Ann Hanson, H. R. Giger, Daniel Greene, Ron Kleeman, Arantzazu Martinez, Syd Mead, Moebius, Paul Oxborough, Alex Ross, Anthony J. Ryder, Dolfi Stoki, William Stout, Dan Thompson, Julie Bell and Boris Vallejo, Scott Waddell, and Jamie Wyeth, Star Wars: Visions is a breakthrough tribute to the worldwide inspiration that is Star Wars.
