For "Star Wars" fans of all agesBy James PernikoffThis delightful little book features just about all of the recognizable characters from all six "Star Wars" movies, including droids, creatures, and certain groups (like the Gamorrean Guards, Stormtroopers and X-Wing Pilots, for example). Even characters who I recognized but didn't even know the name of are featured.Of course a few appear more than once, where their identity changed (Anakin Skywalker/Darth Vader, etc.). About the only omission are the individual Podracers, who (aside from the dastardly Sebulba) are all featured on one page. And some entries are on pages with a black, rather than white, background (and not necessarily signifying evil vs. good), which makes them a bit harder to

read.No matter; this is an indispensable reference to "Star Wars" fans, young and old. But it only applies to the six movies of the saga; characters from "Clone Wars" are featured in their own book, and characters from the "extended Universe" are not here, either. But if you want to know more about General Grievous, Sy Snootles or Zam Wesell, they're all in here!1 of 1 people found the following review helpful. All Your Favorites are HereBy Robin DayMy 11 year old daughter had seen a boy with this at school and decided she wanted to get it for her 6 year old little brother for Christmas because it looked so good. He loved it, but I also enjoyed taking a trip down memory lane. It is a nice hard bound book that contains over 200 characters. Each character gets a full color page devoted to them with essential information, cross-references to other characters, and little known tidbits.. All your favorites are there as well as all the favorites you've forgotten ever existed- R2D5 anyone? Every human, creature, or droid that makes an appearance in Episodes I-VI are represented here. Just note that this was published before "The Force Awakens" so those characters are not in it. Any Star Wars fan, young or old, will enjoy this.0 of 0 people found the following review helpful. DK publications are of very high quality visual orientation, whether photographs, illustrations, diagrams, instructions. This book has good quality color photos of the characters with descriptions and details. Purchased as a gift for young Star Wars fans and they will likely be very pleased. As the purchaser, I was pleased with the quality and comprehensive coverage of the subject. I'm not a Star Wars expert but it looks like it will please those who are!
