Incredibly detailed book that feels more like a college textbook than a work of fiction. The authors have painstakingly brought to life your favorite locations and provide a myriad of notations and details that only the biggest Star Wars nerd would love. If you are even considering this book, then make the purchase!
Incredible illustrations, charts, maps, and new expanded universe information make this a must have.
Only minor quibble is the print can be very small in places.

You have to be a fan with time on your hands to enjoy this. If you are, and if you want more than you get from the films, this is a really cool way to see if what you've imagined was right. Great fun and beautifully illustrated.

Very detailed book on all locations between the 7 main Star Wars movies. I wish it included CW, Rebels and Rogue One but it doesn't. I guess because Rebels and Rogue One have their own books and CW is covered in other books and would add a lot to this one. Provides maps, location descriptions, background information and paths of characters. For instance, Dooku, Yoda, Anakin and Windu's routes and own colors on Geonosis. It also has buildings and room cut aways for most major locations from the movies.

Packed with more than 50 intricate full-color cross-section artwork and 3-D maps, this visual guide will take you into the incredible worlds and locations in the Star Wars galaxy. From the towering skyscrapers of Coruscant to the terrifying technology of the Death Star, *Star Wars: Complete Locations* lets you see in astonishing detail the numerous worlds, bases, cities, landscapes, and battle sites from the Star Wars galaxy. Discover the secrets of the Jedi Temple Complex and tour Maz's Castle on Takodana. With brand-new cross-section artwork from *Star Wars: The Force Awakens*, *Star Wars: Complete Locations* is the definitive collection that takes you inside the world of the Star Wars saga.
