Patricia C. Wrede : Star Wars: Episode #01: Collector's Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars: Episode #01: Collector's Edition:

3 of 3 people found the following review helpful. Parent's review By M. Heiss These junior novelizations worked -- they seized my son's attention and kept him reading non-stop for the month of July. He read this book two or three times in the car as we drove on vacation -- I read Phantom Menace for a half-hour, and it is true to the screenplay. It gives a little more insight into what the characters are thinking and how they make decisions. It's a much longer book than he would willingly choose for himself, and I like that. (About 200 pages) 1 of 1 people found the following review helpful. Star Wars good By Rhonda Garcia This Star Wars chapter book is very appealing to boys from 3rd though 5th

grades at our school. It is always checked out. 0 of 0 people found the following review helpful. Great book
By heather_ann
Loved the book it was very good told the story in a new way told from the characters perspective and not from the movie views.

A galaxy is threatened. A young Jedi is discovered. A dormant evil rises again, New truths are found. Bestselling author Patricia C. Wrede brings to life the epic story of "Star Wars: Episode I," in a stunning novel sure to captivate legions of readers.

.com Much-loved YA author Patricia Wrede (Dealing with Dragons, Calling on Dragons) retells here the storyline of Episode I, The Phantom Menace from opening shot to final scene. Since much of the action in Phantom Menace centers on 14-year-old Queen Amidala and 9-year-old Jedi-to-be Anakin Skywalker, Wrede takes the opportunity to focus on the thoughts and struggles of these two scrappy youngsters. And young Star Wars fans will appreciate that Wrede's adaptation is faithful to the screenplay--the events and dialogue mesh seamlessly with memories from the movie, only complementing the action with added details and inner dialogue. (We all knew what Anakin was thinking when he rolled his eyes at Qui-Gon's mollycoddling, but this book confirms our suspicions as Anakin groans to himself, "Grown-ups!") An inset section with 28 color stills from the movie adds a nice visual touch to a well-told story. (Ages 9 to 12) --Paul Hughes
About the Author
PATRICIA C. WREDE has written many novels, including Sorcery and Cecelia or The Enchanted Chocolate Pot and The Grand Tour coauthored with Caroline Stevermer, as well as the four books in her own series, the Enchanted Forest Chronicles. She lives near Minneapolis, Minnesota.
