For the Adult Star Wars FanBy _()_[[VIDEOID:mo2Q16I7WX7FD28]]I didn't think I would like "The Complete Vader" and never intended to buy it until I browsed it in the bookstore. It is not what I expected. There are replica posters, stickers, and script pages throughout. It reminds me of the "Star Wars Vault," though less extensive.The story of Vader includes his initial incarnations, the evolution of his character, and the casting and development of the young Anakin. It even includes the backstory behind the ostracization of David Prowse. Until now, I've only read innuendos.Included are details about

merchandising and toys, but that did not interest me nearly as much as the photos, inserts, and Vader's story itself. This is a book that is sure to please the adult Star Wars fan. I am happy to add it to my collection. 4 of 4 people found the following review helpful. The bible of vader, kneel before it. By P.D. when i saw this book on here, my jaw dropped and i had to have it. waited by the door and it finally came. it is a big book, nice hardcover with vader from front to back. just amazing pictures and details of how vader was born and up til today. the concept photos and background of how he began is amazing. totally changes your outlook on star wars as a whole. plus amazing extras such as hand written script of luke i am your father scene, pop out posters, just too many extras to write down. if you love star wars and the dark lord then you must have this. who cares what the price is, just click order and wait by the door til it comes. thank you for your time and may the force be with you..... 0 of 0 people found the following review helpful. Recommended for fans of the fallen Jedi/Sith Lord By Patricia L. I very much enjoyed this book. Mr. Windham is one of the most prolific and respected Star Wars writers and this volume does not disappoint. Very interesting and Recommended for fans of the fallen Jedi Anakin Skywalker and his transformation into the Sith Lord Darth Vader.

Star Wars: The Complete Vader is the definitive book on the history, myth, and cultural impact of Darth Vader. From his early development in the first Star Wars film by George Lucas, to the new legends created in comics, videogames, and novels, to his ongoing appearances on everything from television commercials to bedspreads, Vader presents a complete view in all his incarnations as the Dark Lord of the Sith. Going beyond the films to cover his further adventures in the Star Wars Expanded Universe, the book combines new insight with exclusive interviews and photographs from the Lucasfilm Archives. Interactive reproductions of rare memorabilia fire the imagination, while pages packed with never-seen-before images explore the worlds endless fascination with the notorious Darth Vader.

About the Author Ryder Windham is a former editor of Star Wars comics and has written more than fifty Star Wars books, including Jedi vs. Sith: The Essential Guide to the Force and The Rise and Fall of Darth Vader.
