David West Reynolds : Star Wars X-Wing: A Pocket Manual (Star Wars/A Pop Up Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Wars X-Wing: A Pocket Manual (Star Wars/A Pop Up Book):

Our Miniature Editions TM collection continues to grow! Since 1989, when our first minis appeared, Running Press has offered an astonishing range of subjects, sure to find a place in any booklover's library!

.com Playfully written as a primer for Rebel pilots, the mini-sized X-Wing--A Pocket Manual is both a fun way to kill a few minutes and an envy-inducing symbol of Star Wars street cred. The writing is tongue-in-cheek while still remaining meticulously faithful to the movies. The pop-up ships, assembled from real movie footage, are so convincing that you'll have the irresistible urge to "fly" them--complete with sound effects. Whether it ends up in a coat pocket or on a desktop, this manual will become a prized possession--especially if it's yours. --Paul Hughes
