()/[VIDEOID:mo2BSKYU9NUCK9O]]"Star Wars Year by Year" chronicles the time period beginning before "Star Wars": the popular culture and historic events that lead up to its creation, George Lucas's younger years and his work in movies. The year-by-year begins in 1973 and leads up through 2012. Each year is afforded roughly four to ten pages. It includes everything from movies to books to collectibles to non-Star Wars news of the year, to help orient the reader in time.This is a book one would browse. I wouldn't read it straight through like a novel. It's visually very busy, but there's a lot of information to fit in for a book that spans every year for decades.Inside the front cover was a pleasant surprise: two 8 x 10 inch prints. One is of Han Solo in black and white and the other is of Obi-Wan and

Duchess of Mandalore from the "Clone Wars." That did make my day.0 of 0 people found the following review helpful. My bf was excitedBy MissNobodyI got this as one of the Vday gifts and my bf was very excited to get this. I knew he wanted this. The only reason for giving it a 4 star is because the corners of the book were slightly damaged. It isn't very noticeable but you can see it if you look closely; my bf pointed it out (even I had seen it before I gave it to him). I don't think it was due to the shipping, looked more like it was from the bottom of a huge pile of such heavy books. I wish there was some discount because of the defect or at least mentioned somewhere.0 of 0 people found the following review helpful. Five StarsBy kylecool book
