**Roger Clarke : Story of the Scene: The inside scoop on famous moments in film (Professional Media Practice)**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Story of the Scene: The inside scoop on famous moments in film (Professional Media Practice):

1 of 1 people found the following review helpful. this is not a hugely substantial tome By m morrisseyit's a series of

very small articles not unamusing but... I don't think bringing them together constitutes a book of any great heft. Just be aware you'll get one or two pages at most about one or two anecdotes at most about these various films. I felt kind of disappointed, expecting something more . . . it seems to me to make a book the author ought to have been asked to expand on these essays.0 of 0 people found the following review helpful. A must for cinemaphilesBy Bernie (xyzzz)If you live for movies or think they ought to live for you then his is your book.Everyone has their favorites. Unfortunately most of my favorites such as "Cannibal Women in the Avocado Jungle of Death" (1989) did not make the cut.However there are 80 pretty well known films and a tidbit about each. By reading the information on the films that you are familiar with you can verify that this is not some weird person with a grudge and trust the information on the few films that you might have missed.You can look on this book as a more thorough review of each movie. The each come with a still shot from the movie.0 of 0 people found the following review helpful. The each come with a still shot from the movie.

This book features the behind-the-scenes stories of eighty important moments in film history, both on and off the screen. From Robert DeNiros iconic You talkin to me? scene in Taxi Driver to the strange case of Brandon Lees death while filming The Crow, this book details the unique circumstances of artistic creation: how the shot was made or the bizarre and often dangerous lengths a director or actor will go to for the perfect take.

"The celebrated scene of Harrison Ford shooting a scimitar-swirling assassin was made particularly zippy because the star had an urgent need to use the lavatory..."The Independent
