Productive Luddite : Storyboard 16:9 Cinema Notebook: Visual Storytelling Technology before purchasing it in order to gage whether or not it would be worth my time, and all praised Storyboard 16:9 Cinema Notebook: Visual Storytelling Technology:

3 of 3 people found the following review helpful. Good productBy David B. bogieRead the description of this product carefully. That is exactly what you will get. No surprises. No disappointments. Animators, video and web designers can create and print or download any of the many free templates available on the interwebs but I needed a bound notebook. These products beat the pants off Moleskine's storyboard notebooks in terms of layout and paper quality. The molie is, however, hard bound.3 of 3 people found the following review helpful. Nice way to order your ideasBy

Lloyd S. Cheairs It is a nice notebook, I do not use story boarding for making movies, but for working out the flow of the books I write. It is great for both. 6 of 6 people found the following review helpful. Simple but useful

If you are looking for a shortcut to be able to have blank widescreen storyboard always available, this is perfect. It's definitely not something that couldn't be created easily in Illustrator or even paint. But for convenience it's great

The Productive Luddite's STORYBOARD 16:9 CINEMA NOTEBOOK is ideal for filmmakers, directors, cinematographers, film students, animators, illustrators, screenwriters, artists, advertisers, product placement specialists, graphic designers, storytellers, the cinematically inclined, and those working to master the visual grammar of the modern age. EACH NOTEBOOK contains 100 pages and comes wrapped in a soft but sturdy black cover. EACH PAGE contains space for title, date and page number; there are four frames per page with Scene, Shot, Shot No., caption field, and lined notes section for each frame. THIS NOTEBOOK SUPPORTS you during the creative process that leads to: great feature, short and student films; television shows; commercials; animated shorts and features; and, other creative projects. USE THIS NOTEBOOK TO: sketch and visualize scenes, create a visual plan for your project, beat board the script, flesh-out and test ideas and concepts, identify special effects and stunts, organize production and fine-tune budgets, and verify need for equipment, props, costumes, lighting schemes, locations and casting.
