**John Russell Taylor : Strangers in Paradise: The Hollywood Emigres, 1933-1950** before purchasing it in order to gage whether or not it would be worth my time, and all praised Strangers in Paradise: The Hollywood Emigres, 1933-1950:

1 of 2 people found the following review helpful. Wonderful history of early Hollywood...By LakeKidsThis is a wonderful history of early Hollywood/Los Angeles in the movie industry. From 1900 to early 1950's many immigrants came to Southern California who were escaping from countries at war or about to be. They brought many of the names that became part of the movie industry as directors, stars, writers, composers, etc. From the way they lived to the work they tried to find makes an entertaining story for those who are curious about this area's history. The author sometimes gets sidetracked into too much detail, but overall I thought it was very informing and make me want to check all my "old" movies to see about those people who made them.
