Sucker Punch is a film that doesn't get a lot of credit and is one of Zack Snyder's best. Seeing and reading what he was thinking makes it even better. Some of the early concept art for the film is really bad, but still gives a great look into the process.1 of 1 people found the following review helpful. Beautiful BookBy Jackson StephensThis is a beautiful and nicely done book--thick, heavy, and high quality. It's definitely a must have for any fans of the movie.

From Zack Snyder, the director of 300 and Watchmen, comes Sucker Punch; an epic action fantasy that takes us into the vivid imagination of Babydoll - a young girl, whose dream world provides the ultimate escape from her darker reality. Unrestrained by the boundaries of time and place, she is free to go where her mind takes her, but her incredible adventures blur the lines between what's real and what is imaginary with potentially tragic consequences. In this official book, Snyder guides you through the many amazing worlds and characters of the film, with eye-popping production art and stunning photographs by Clay Enos (Watchmen: Portraits).
