For the most part it's been awesome. I am finding that some signs don't match my ASL video dictionary and on some puzzles that have the entirely WRONG sign listed for the answer that they want. This becomes frustrating as I am trying to use this as a learning guide.0 of 0 people found the following review helpful. Five StarsBy Gamegirl 64Loved it.0 of 0 people found the following review helpful. Great ASL tool for those who like word puzzlesBy tbyrdThis is a fun book to go along with your ASL training. While learning ASL, (I'm about to be in ASL 4), you watch a lot of video footage. This is a nice break from that. I have always enjoyed word searches since I was a small child, not to mention you can do this on trips or whenever you have free time and

are not in a position to watch a video.
