Art Bell : The Art of Talk before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Art of Talk:

Words of warning from Art Bell By Keith Bramstedt I started listening to Art Bell on Coast to Coast AM in 2002 about a year before he turned over full time hosting duties to George Noory, although Art continued to host on weekends until about 2006. Art has a great broadcasting voice, first of all, and I enjoyed a lot of the topics his show covered. Whereas George Noory is a career broadcaster who can come across as being rather inauthentic, Art was more of a "regular guy" who happened to have a radio show. I was looking for some light reading recently and ordered "The Art of Talk." I enjoyed reading about Art's difficult upbringing under

two military parents, his career in the Air Force, and his early days in radio broadcasting before Coast to Coast. Art had some interesting things to say about Americans and their future (this was written in 1998): "America has become soft. We have had it too good, for too long.".....and: "I do not see a good future for America, at least the way it is headed right now.....Most Americans are in denial about a lot of things. Most of us have our heads in the sand economically, politically, and socially. We are experiencing a rapid deterioration in each of these areas." I think most Art Bell fans would enjoy reading "The Art of Talk." 0 of 0 people found the following review helpful. Easy and enjoyable read. If you don't know of Art Bell you might not get it. He definitely writes in his own style, plain spoken. By Vicky Lupperger An easy and enjoyable read. Well suited for a lazy day on the sofa or pool side. If you don't know and love Art Bell you might not get it. He definitely writes in his own style and is plain spoken. This is a history of his life from the perspective of talk radio. 0 of 0 people found the following review helpful. Viva Art Bell! By ActionAndAdventure! Somehow, I received an autographed copy of this great book. What a master of radio and his field! Have enjoyed his shows since I flew helicopters for the USCG, and upon returning from flights, would listen to his shows to "decompress".

Intensely private radio personality Art Bell, who lives in the middle of the desert 65 miles west of Las Vegas--where he broadcasts his radio shows--finally comes forward with his fascinating autobiography.
