J. Edward Allen : The Basics of Winning Roulette before purchasing it in order to gage whether or not it would be worth my time, and all praised The Basics of Winning Roulette:

0 of 0 people found the following review helpful. Four StarsBy TommyGood book. Got me ready for a week in Sin City.1 of 2 people found the following review helpful. I didnt know anything about gambling before I bought this ...By

Orders I didn't know anything about gambling before I bought this book. So after reading it, I went to Las Vegas and won Fifty Six Thousand dollars. 4 of 4 people found the following review helpful. Good basic review of playing roulette
By David Anderson
If you're looking for a good basic review of playing roulette, you could read this, or you could read the entry on wikipedia and save a few pennies. As far as strategy goes, the attitude here is that there is basically no good winning strategy for roulette unless you run into a psychic Daphne Moon from Down Under like the author did. He's also not big on the various Martingale systems, which is the consensus of other authors I've read. The book is nicely written, free of grammatical errors and not thrown together like too many Kindle books, but if you're looking for a book on winning roulette, look around at other books.

Designed for players who want to learn now, this great primer can be read in one quick setting. You'll learn how to make every one of the 150 possible bets with illustrations accompanying every explanation. You'll also learn about betting systems, money management, and payoffs. Glossary included. Illustrations. 64 pages
