From Hal Leonard : The Best Movie Songs Ever before purchasing it in order to gage whether or not it would be worth my time, and all praised The Best Movie Songs Ever:

The arrangements are well done though and fun to play, it's just the song list. I'm keeping it to learn some theme songs that I'm not familiar with though just to expand my repertoire. If your interested, pursue the song list - you may be more familiar with most if so I'm sure it would be a

delight. Overall, I really like the "best ever..." series. 0 of 0 people found the following review helpful. Good Intermediate Book By allycat Read review on what songs are actually included in THIS book-not the product description. Good variety of movie songs for intermediate level pianists. 0 of 0 people found the following review helpful. The Best Movie Songs Ever By Eleanor Nash This book is already dog-eared from use! It has up-to-date songs as well as older selections. It came without a spiral binding, however, and I needed to have that done at a printing house. Music publishers need to think of how the book will be used; pianists need the music to lie flat to facilitate page turns.

(Piano/Vocal/Guitar Songbook).
