characters and even the basics is incorrect (for the characters you're better off going to the games page here on and reading) and even more is very vague and doesn't live up to the claims of 'Will show you how to stealth kill, block uruks, etc.' Saying 'block uruks' is telling people to block not showing how, saying how to go into stealth kill is to sit still, esp. under the cover of darkness is very wrong, you must actually be in stealth mode regardless of time of day or night and must not be seen. There are many more examples. Also the claim of 'covers 20 chapters' is misleading. This leads one to assume it has more size than it does. It is physically slightly bigger than a mass market paperback height wise and the same width wise but the 20 chapters are VERY small, only 66 pages (the last about the author) and the black and white photos are more difficult to make out, esp. the Ithildin doors photo. Personally, I would recommend 'Missions and Secrets in Middle-earth Shadow of Mordor - Unofficial Video Game Guide' It's kindle only but even if you don't own a kindle you can get a Kindle for PC app from for free so don't let that stop you.7 of 7 people found the following review helpful. MisleadingBy C ChronisterNot much more than an starter instruction book with a very basic storyline walkthrough.4 of 5 people found the following review helpful. Useless. Completely USELESSBy NavigatorPoorly organized, lacking in any kind of depth, and offers NOTHING that you can't find out on your own. There are at least half-a-dozen player's guides for "Shadow of Mordor" on the Web that are written far better than this bare-bones freshman-level outline, and they're all FREE. I spent only five bucks for the Kindle edition of this pathetic little scribble, and I still feel totally ripped off.Don't waste your time even trying to evaluate this miserable excuse for a player's guide. Do a Google search instead, and learn from some players whose main concern is increasing your enjoyment of the game, rather than someone who is trying to rip off a few quick bucks before his reputation becomes common knowledge.

Shadow of Mordor is a game that is set in the Lord of The Rings universe, in Middle Earth, and more specifically in the realm of Mordor. You will learn about weapons, playstyles, abilities, executions, upgrades, challenges, the environment, the character and enemies, struggles and bosses. This guide takes you through the storyline and basics of combat and stealth. It will show you how to block Uruks, stealth kill Uruks, and that you should get your wife flowers on your anniversary as a surprise gift.The walkthrough will cover 20 chapters.
