I love jigsaw sudokus. They are my absolute favorite. But these are not like the ones that I am used to and enjoy so much in the smaller little books that sell at the grocery store for #1-5 or so. The jigsaw designs are stylized and repeated so that it doesn't seem like each is unique, though of course the numbers are not the same. The same designs over and over again are tedious.But, if this doesn't bother you, and it may not bother some people at all, you may enjoy it.2 of 2 people found the following review helpful. Another fantastic large print item. Thanks!By NoneYaI love Jigsaw Sudoku! Some days I have trouble seeing the small numbers. This one will be good for my mother as well.1 of 1 people found the following review

Printed on high-quality paper that will easily withstand the constant erasing and re-writing that a Sudoku puzzle requires, this book contains 400 graded Jigsaw Sudoku puzzles. The 400 puzzles are broken down as... 100 easy puzzles. Perfect if you've never played Jigsaw Sudoku before! 100 medium puzzles. A little more challenge. 100 hard puzzles. 100 tough puzzles. Perfect for those who are experienced Jigsaw Sudoku puzzlers looking for extra challenge. Every puzzle has a unique solution and can be solved by logic alone - no guessing required. Full answers are given in the book. Jigsaw Sudoku is very similar to standard Sudoku, but instead of all the regions being 3x3 squares, they are instead irregular 'jigsaw' shapes.
